### **FoodLogiQ: Company History**

FoodLogiQ was founded in 2006 by Clarkston Consulting in response to the growing demand for a safer and traceable food chain. FoodLogiQ provides support and training to Food Industry Associations with a web-based software package that is the first of its kind.

Clarkston Consulting is a global management and technology consulting firm that provides strategic business solutions for clients within the life sciences and consumer products industries worldwide. These market leaders turn to Clarkston to help them bridge the gap between strategy and execution to sustain a competitive advantage. Clarkston is a sought-after business partner because of its industry thought leadership and commitment to delivering brilliant client service sustaining a five-year client satisfaction rating of 94% as measured by The Conference Board.
